github.com/aliciawyse

codepen.io/alibar

---

*My mission as a web developer is to build software that improves the way people live & collaborate.*

## Education

Georgia Tech | Certificate in full stack web development | Present - Feb. 2018

University of California, Irvine | BA in anthropology and political science | 2012

## Skill Set

Languages	Frameworks/Libraries	Tools
HTML5, CSS3	Bootstrap, Node	Git/GitHub, WebStorm
JavaScript, Python	jQuery, Moment	AJAX, Firebase, Balsamiq

## Projects

### CODER DOJO MCDONOUGH WEBSITE REVAMP

The older Coder Dojo McDonough website was unresponsive and boring. Along with mentoring, I rebuilt the website for better responsiveness and user experience.

### TRAIN SCHEDULER

I built a train scheduler that uses jQuery, Moment.js and client side storage to display up-to-date arrival and departure times.

### CAPITAL TRIVIA GAME

Using vanilla JavaScript and jQuery, I built a quiz that times the user and updates page content based on the user's response.

## Work

Riskalyze | Customer Support | Atlanta, GA | Nov. 2016 - Present

Community Foundation | Donor Engager | Washington, DC | Jan. 2015 - April 2016

U.S. Trust | Trust Officer Support | Washington, DC | June 2013 - Jan. 2015

## Hobbies

Writing: Use specific feedback to earn your next promotion, Broadening my horizon.

Hackathons: Women Who Code 2017 Atlanta Hackathon
